

Connecting Citizens Grant Program

Round One

In 2008 nearly 200 applications for funding assistance under the Connecting Citizens Grant Program were received from all over British Columbia. Applications were adjudicated based on the published program criteria and 67 projects will be funded in this round of the three-year program.

These projects will extend last-mile broadband connectivity to nearly 100 locales, making significant contribution to bridging the digital divide.

Projects funded in this round must be completed by March 31, 2010.
